

Time is money! Clockwatching is wasting money!

Let our reliable automated timer save you money...

Our ALFTECH dedicated automatic timer device WILL SAVE YOU THOUSANDS. Boring routine tasks like ringing the school-bell or sounding the alarm for end of shift will not impede your productivity. In-fact it will erase all errors, missed timings and take all starts and changes off your hands.

The state of the art and easy-to-use ALFTECH Digital Programmable Timer can be instructed to trigger up to 120 events per day for every 7-day cycle, so you need never "clock watch" again. With its technologically advanced accuracy and dependability, the ALFTECH DPT-EN3 will perform - day in and day out, year in year out.

IT IS RELIABLE

- The timer is accurate to ± 2 minutes per year.
- The timer features Automatic Battery back-up.
- Your Scheduled programme information cannot be lost, even if power is interrupted.

IT IS EASY TO USE

- The DPT-EN3 Timer is USB programmed and powered from the attached PC, or a powered USB Hub.
 - To program a day's (or week's) events, you simply run DPT-Console software from your desktop or laptop PC. An easy-to-use Microsoft Windows® compatible program on your screen leads you through the simple steps of setting up the schedule.
 - Modifications on schedules are simple and can be done instantly when needed.
- For easy operation and quick schedule updates you have the option of staying connected.
- It is ready to use with your all inclusive USB Cable, Relay Connector and Software CD-ROM.
 - It comes as a compact (102 x 54 x 30 mm) unit with an easy to install wall-mount clip.
 - Manual ring at the push of a button.

Isn't it time you switched?
